Rounding to the Nearest 10 or 100

Directions: Solve each problem.

Problem 1

Choose the numbers that round to 400. Choose all that are right.

- [ ] **356**
- [ ] **451**
- [ ] **449**
- [ ] **418**

Problem 2

Use the number line.

47 is between _____ and _____.

47 is closer to _____ than it is to _____.

47 rounded to the nearest 10 is _____.

Problem 3

Choose the numbers that round to 80. Choose all that are right.

- [ ] **76**
- [ ] **86**
- [ ] **74**
- [ ] **83**

Problem 4

Round 36 to the nearest ten.

_____

Problem 5

Choose the numbers that round to 300 when you round to the nearest hundred. Choose all that are right.

- [ ] **251**
- [ ] **350**
- [ ] **239**
- [ ] **349**

Problem 6

Round 748 to the nearest hundred.

_____

Problem 7

Which number is NOT rounded to the nearest 10?

- ( ) **40**
- ( ) **90**
- ( ) **65**
- ( ) **20**

Problem 8

Use the number line.

525 is between _____ and _____.

525 is closer to _____ than it is to _____.

525 rounded to the nearest 100 is _____.

Problem 9

Which number is NOT rounded to the nearest 100?

- ( ) **800**
- ( ) **350**
- ( ) **200**
- ( ) **900**

Reading: The Pumpkin Patch Plan

Directions: Read the story three times. A grown-up can count the words read right. Then answer the questions in complete sentences. Restate the question.

The Pumpkin Patch Plan

"Our class is going to the pumpkin patch on Friday," Nia 11
told her brother Owen. "Everyone gets to pick one pumpkin to 22
take home." Owen frowned. "Mr. Reyes next door loves pumpkins, but 33
he cannot get to the patch. His leg is in a 44
cast." Nia thought about it for a moment. "We could bring 55
a pumpkin back for him," she said. "That would be a 66
kind surprise." On Friday, Nia searched the whole patch. She wanted 77
the roundest, brightest pumpkin she could find. At last she spotted 88
it, sitting all alone by the fence. She carried it carefully 99
all the way to the bus. That evening, Nia and Owen 110
knocked on Mr. Reyes's door. When he saw the pumpkin, his 121
whole face lit up. "Well, this is the finest pumpkin on 132
the street!" he said with a chuckle. "You two are very 143
thoughtful neighbors." Nia and Owen smiled all the way home. 153

The numbers count the words so far, for a grown-up scoring a read.

Mistakes			

Question 1

Why did Nia and Owen bring a pumpkin to Mr. Reyes?

Write your answer in a complete sentence

Question 2

What do you think the word thoughtful means?

Write your answer in a complete sentence

Word Problems: Multiply or Divide?

Directions: Read each problem. Decide whether to multiply or divide, write the equation, then write the answer.

Problem 1

Owen puts 24 apple slices into 4 bags. He puts the same number of slices in each bag. How many apple slices are in each bag?

Show your work

I need to...

- ○ **Multiply**
- ○ **Divide**

Write the equation.

_____ **?** _____ **=** _____

How many apple slices are in each bag?

_____

Problem 2

Nia's class plants a garden. They plant 5 rows with 7 seeds in each row. How many seeds do they plant in all?

Show your work

I need to...

- ○ **Multiply**
- ○ **Divide**

Write the equation.

_____ **?** _____ **=** _____

How many seeds do they plant in all?

_____
