Page 1 Rounding to the Nearest 10 or 100

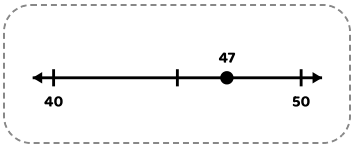

Directions: Solve each problem. Check each answer as you go.

Problem 1

Choose the numbers that round to 400. Choose all that are right.

- [ ] 356
- [ ] 451
- [ ] 449
- [ ] 418

Problem 2

Use the number line.

47 is between _____ and _____.

47 is closer to _____ than it is to _____.

47 rounded to the nearest 10 is _____.

Problem 3

Choose the numbers that round to 80. Choose all that are right.

- [ ] 76
- [ ] 86
- [ ] 74
- [ ] 83

Problem 4

Round 36 to the nearest ten.

_____

Problem 5

Choose the numbers that round to 300 when you round to the nearest hundred. Choose all that are right.

- [ ] 251
- [ ] 350
- [ ] 239
- [ ] 349

Problem 6

Round 748 to the nearest hundred.

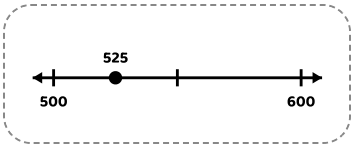

_____

Problem 7

Which number is NOT rounded to the nearest 10?

- ( ) 40
- ( ) 90
- ( ) 65
- ( ) 20

Problem 8

Use the number line.

525 is between _____ and _____.

525 is closer to _____ than it is to _____.

525 rounded to the nearest 100 is _____.

Problem 9

Which number is NOT rounded to the nearest 100?

- ( ) 800
- ( ) 350
- ( ) 200
- ( ) 900

Reading: The Pumpkin Patch Plan

Directions: Read the story three times. A grown-up can count the words read right. Then answer the questions in complete sentences. Restate the question.

The Pumpkin Patch Plan

"Our class is going to the pumpkin patch on Friday," Nia 11
told her brother Owen. "Everyone gets to pick one pumpkin to 22
take home." Owen frowned. "Mr. Reyes next door cannot go anywhere 33
right now. His leg is in a cast." Nia thought about 44
it for a moment. "We could bring a pumpkin back for 55
him," she said. "That would be a kind surprise." On Friday, 66
Nia searched the whole patch. She wanted the roundest, brightest pumpkin 77
she could find. At last she spotted it, sitting all alone 88
by the fence. She carried it carefully all the way to 99
the bus. That evening, Nia and Owen knocked on Mr. Reyes's 110
door. When he saw the pumpkin, his whole face lit up. 121
"Well, this is the finest pumpkin on the street!" he said 132
with a chuckle. "You two are very thoughtful neighbors." Nia and 143
Owen smiled all the way home. 149

The numbers count the words so far, for a grown-up scoring a read.

Question 1

Why did Nia and Owen bring a pumpkin to Mr. Reyes?

Write your answer in a complete sentence

Question 2

What do you think the word thoughtful means?

Write your answer in a complete sentence

Check your meaning: which one fits the story best?

- ◯ **Thinking about what other people need and being kind**
- ◯ **Very tired after a long day**
- ◯ **Loud and silly**
- ◯ **Forgetting about other people**

Word Problems: Multiply or Divide?

Directions: Read each problem. Decide whether to multiply or divide, write the equation, then write the answer.

Problem 1

Owen has 24 apple slices. He shares them equally with 4 friends. How many apple slices does each friend get?

I need to...

- ◯ **Multiply**
- ◯ **Divide**

Write the equation.

____ ÷ ____ = ____

Answer: How many apple slices does each friend get?

____

Problem 2

Nia's class plants a garden. They plant 5 rows with 7 seeds in each row. How many seeds do they plant in all?

I need to...

- ◯ **Multiply**
- ◯ **Divide**

Write the equation.

____ × ____ = ____

Answer: How many seeds do they plant in all?

____
